American Patriot Bulletin

Greeting American Patriots,

What We Will Lose if The Far Left Takes Back the House and/or Senate

In this issue of the American Patriot Bulletin, you will find our focus on the billions of dollars in fraud that is being revealed by the Trump Administration and his Cabinet, and even by gubernatorial candidate Steve Hilton, here in California, along with the "Cabal" that wants to destroy America.

All this has been ignored by the mainstream media, and I often wonder if everyday Americans are aware or even care about the extent of the fraud that has been exploited, mainly on senior citizens and families with children, especially in California and Minnesota.

I don't think most taxpayers have a grasp of the amount of money that has been ripped from their pockets, especially when it comes to illegal aliens and the homeless industrial complex. Or, do they know about the number of nonprofits who have benefited financially from others' demise. These too, are being investigated by the Republicans in Congress and the Trump administration, something that is long-overdue. And it is not just by fraudsters in America, our FBI has arrested fraudsters in other countries.

If the Democrats take back the House, all these investigations will end, to include that of the corruption that occurred during four years of the Biden administration. I believe the Democrats are nervous about what is being uncovered and feeling the pressure, because some may have been involved and/or been part of the cover up, particularly when it comes to the weaponization within Biden's Department of Justice.

I know that the news we have provided and that on your TV has been overwhelming, as well as worrying about the results of the midterm election, so I would like to encourage you to listen to this video with the song "May God Bless America" by Jason Bellard.

I also encourage you to be an informed citizen, and take the time to read the good and the bad that is happening in our country and especially in California.

Why Are Dems So Complacent Or Complicit About The Spread Of Radical Islamism?

But what is the appropriate response as we watch Democratic politicians appeasing, excusing and deflecting in the face of one of the greatest threats of our age: radical Islam?

You will remember in the aftermath of 9/11 how many **"progressives"** insisted that these iniquities were caused by American foreign policy, or western colonialism, or the one Jewish state. Anything, in fact, to avoid taking these men at their word, who made videos explicitly stating that they were murdering to **"bring glory to Allah."**... **Read More**

Dems Are Intentionally Blind to Fraud

With the federal government's deficit spending at **$2 trillion**, concern over fraud should be high on every politician's list, regardless of party.
