Greeting American Patriots,

California Republicans Need to Wake Up

I know I am constantly on my soap box about low voter turnout by Republicans in midterm elections. Also, we are all aware that there are far more registered Democrat voters than Republicans in our state. However, what might surprise you, is that Democrats have the same problem.

In researching the numbers in a couple of Republican majority counties, and three Democrat counties, for the 2022 midterm, 2025 Prop 50 special election, the 2024 presidential election, and the June 2026 primary election, in all cases, if 10% to 20% more Republicans had voted, (with the exception of the 2024 Presidential election), we might have won some elections. As well, the data show that our Republican numbers continue to increase, and we are a growing force that is not going away.

Additionally, CA voters and party leaders, are silent when it comes to the many accomplishments that President Trump, his cabinet, and those in Congress (particularly the House) have accomplished, while at the same time having to fight the elitist (*"NO policies or ideas"*) Democrats who put up roadblocks at any legislation backed by Republican lawmakers. While at the same time snub 80% of their own Democrat voters who support such bills as Voter ID-only citizens allowed to vote, and girls only sports, locker rooms, and restrooms.

It is not only time for change in California, it is time for a wake up call and change within the California State Party leadership.
